Postgraduate Diploma in Management in the field of Business Administration

MESSAGE FROM THE PROGRAMME DIRECTOR

The one-year Postgraduate Diploma in Management in the field of Business Administration (PDM-BA) is a full time programme with specialisation in business administration. It is broad in scope and will equip you with the critical skills and knowledge required to manage and navigate the complex challenges facing business organisations today.

In addition, it will challenge you to rethink your career and life in new ways. The most distinguishing feature of the WBS PDM-BA is our internship programme. Because we care about your career, we provide intensive career coaching to help you secure a working internship where you can apply your academic learning in a real business context and position yourself for a life changing career.

Innovation, rigour and excellence are in the DNA of WBS. As a business school that has been around for more than 50 years (one of the oldest on the African continent), WBS has earned a reputation for academic excellence and is highly ranked both on the continent and globally. You will learn the latest business concepts from top rate faculty who are experts in their fields as well as practitioners with rich industry experience, and engage in lively interaction with classmates from all backgrounds. The networking opportunities are enormous, and curriculum is cutting edge.

If you are highly motivated, have a strong undergraduate degree (but lack work experience), and would like to gain a solid foundation in business principles, then our PDM is exactly what you need to launch your career.

I look forward to meeting with you and welcoming you onto the programme

Jones Odei Mensah, PhD
PDM-BA Programme Director

WHAT IS THE WBS CASE CENTRE?

In line with the world's leading business schools, WBS has its own Case Centre which produces a collection of fascinating, contextually-relevant and up-to-date case studies every year. The case method, pioneered by Harvard Business School, is widely recognised as *the* most powerful learning tool for management students. WBS's case studies tell the stories of some of continent's most famous (and infamous) business leaders and organisations, giving our students the unique opportunity of playing the decision-maker role in a real-life business dilemma.

TEACHING EXCELLENCE

Apart from our full-time faculty, we have a number of visiting/adjunct professors from other business schools around the world. Numerous guest lecturers bring their up-to-the-minute business or industry knowledge into the classroom.

PUBLIC DIALOGUE, DEBATE & DISCUSSION

WBS hosts regular public lectures and panel discussions on issues facing South Africa and the rest of the continent.

There is no better time or place for you to become all that you want to be

experience

Doing a PDM at WBS was one of the most strategic moves I could have made in my career and academic journey. The programme really develops one to become a critical thinker and have a solutionist mindset. What really stood out for me was that we were encouraged to share and openly engage our views about current trends and various strategies, and this gave us an incredible opportunity to learn from each other.

Hulisa Mutswaletswale

I grew more as an individual in my PDM year than I did in my entire three years of undergrad. This programme allows you to interact with every type of personality you can imagine, which builds your character in a phenomenal way. You learn how to effectively collaborate with people and perform meaningful conflict resolution. I had some of the best lecturers and mentors I ever could have hoped to have – these people are experts in their respective fields and being able to learn from them made our class an extremely fortunate bunch of people.
