The WBS MBA turned out to be a personal transformation journey which was well worth the time and financial investment. It equipped me with the tools that gave me clarity of decision with regards to my career path, and I got to understand the holistic view of the business ecosystem, its interaction with government and resource markets.

I have since gained a competitive edge in my career as the MBA gave me that something-extra that separates me from my peers. The WBS MBA has turned out to be one of the best career decisions I ever took to this day.

One of the best decisions I've ever made in my life, was obtaining the WBS MBA. The skills developed through my MBA have allowed me to think globally when it comes to tackling current and future business challenges. It has positioned me as one of the leading industry experts, in my sphere of work, within the banking sector. Today I work for one of the leading multinationals in the financial services sector and am empowered to make key business decisions that drive the bottom line but most importantly, those that positively and sustainably impact our customers and communities in markets within which we operate across Africa.
