■ MESSAGE FROM THE DIRECTOR, CAPSI

Philanthropy is a growing field of study globally. The Centre on African Philanthropy and Social Investment (CAPSI) at WBS is leading the field with its postgraduate programmes focusing on philanthropy in the African context.

Over the last few years, there has been a lot of attention on philanthropy and expectations have grown on its role towards creating inclusive and transformative societies. There are very few experts on African philanthropy on the continent. This is an opportunity to create a cohort of scholars and researchers in the field of philanthropic studies.

I am excited as the Director of CAPSI to present this degree that offers several important modules on understanding the role that philanthropy plays in development and how to manage and run or establish philanthropic and social investment institutions. In addition, this degree tackles issues that range from fundraising to public policy and sustainable development goals, ethics and religion in philanthropy and advising private wealth, among others.

If you are considering joining this exciting programme, you are indeed in the right place. Welcome aboard.

Prof Bheki Moyo
Director, CAPSI

MMAP CURRICULUM

Wits Business School's MMAP programme is geared towards developing expertise in the management of philanthropic resources. Courses focus on the intersection between public policy, development and philanthropy, as well as on the management and leadership of philanthropic institutions including family and corporate foundations.

There are three components of the Master of Management in African Philanthropy: core courses, electives and a research report.

1. CORE COURSES

The MMAP consists of 4 core courses as follows:

1. African Gifting and Philanthropy
2. Organisation and Management of Philanthropy
3. Resourcing African Gifting and Philanthropy
4. Research Methods

2. ELECTIVES

Students to select three from the list below.

- Advising Private Wealth
- Corporate Social Investment
- Community Gifting/Philanthropy
- Community Foundations
- Philanthropy (Gifting) and the Sustainable Development Goals (SDGs)
- The Role of Religion and Belief
- Public Policy, Law and Regulation

3. RESEARCH REPORT

As part of the MMAP, students complete a research report focused on advancing knowledge and practice in African philanthropy, including giving, volunteering, social investment, and fundraising.

All the learning was firmly grounded in theory, with lecturers who are global thought leaders in what philanthropy and gifting means in Africa. The field-based learning gave each of the students an opportunity to step outside of our everyday realities and consider areas where we can create impact through innovation. I consider having been part of the Wits Business School, and CAPSI in particular, a great privilege, particularly given the calibre of academic staff and colleagues that I interacted with. I will treasure the lifelong friendships and collaborations I made. I am now more confident about my place as a global leader because of WBS.
